In the mythical world of Elden Ring, there is no age limit and magic itself does not limit the power of the user. In the eternal struggle between good and evil, the power of the evil must be cut off, and magic that is used for evil must be secluded in the darkest caves and crevices. Several hundred years ago, the heroic adventurer shot down the evil mage with a bow and plunged into the dark caverns, and the power of the evil fell, cutting off the power of the evil. However, there are not many people who know this. The Lands Between is a land where kingdoms, tribes, and people co-exist. The Lands Between is a calm land whose rain dances the dark moon and the wind. It is a land in which the trees stand tall and the waves crash against the cliffs and the axes plunge into the mountain. It is a land of swaying grasslands that teem with life. However, not all is as it seems. An evil presence lurks. It is the warrior in a cracked mask, the rebel who wields a longsword, the swordsman who laughs, the hunter who stalks, the dark wizard, and the evil spell caster. This game tells the story of a land where a large number of evil people pose a threat, and the tale of a young hero who travels through the Lands Between to cut off their power. “This is a rare action RPG that can hold its own with the ever-present Seiken Densetsu on the Nintendo GameCube... There are numerous refinements and added features to enhance the original, but it’s still a largely traditional RPG. Fortunately, that traditional RPG is one of the most accessible and entertaining around, with fast and responsive combat, the ability to create your own character, and all the advantages and disadvantages of the typical RPG.” GameSpot “Seiken Densetsu is an RPG legend. [...] it really is one of the true treasures of the GameCube.” GameSpot “If you have a GameCube and you aren't playing Seiken Densetsu: Goshuuden, you need to start now.” IGN “This is the best RPG on the GameCube.” IGN “Not only does Seiken Densetsu: Goshuuden surpass previous GameCube titles, but it surpasses previous console RPG masterpieces such as Chrono Trigger and Secret of Mana as well.” IGN “Seiken

Densetsu: Goshuuden is one of the best RPGs for the Nintendo GameCube.” RPGamer So, after great anticipation, Seiken Densetsu: Goshuuden, the game that has long been referenced as the perfect GameCube RPG, is finally here. With the game being available in Japan for almost two years now, I can honestly say that I was completely blown away by the game when I first played it, and I’m still blown away by the game today.” GameSpot Seiken Densetsu: Goshuuden is a traditional RPG, but with a unique design that combines the best elements of traditional RPGs with a new infusion of style. The standard items and enemies that RPG fans will become used to are all present, but they are given a new look to help set it apart from other RPGs. Each system – attacks, items, spells, and equipment – has been given a unique and fresh look. Even the camera angles have been revised. All of the intricacies of fighting and backstabbing have been preserved, and it remains as satisfying to play as the original. It can be tough and it can be slow, but Seiken Densetsu: Goshuuden is an RPG classic that bff6bb2d33
